Remote Child 4+ to Adult Assessment and Treatment

Virtual Consultation — Options, Fees & Booking

COLLABORATIVE CARE + RESEARCH

We offer two pathways for tethered oral tissue care: a standalone virtual assessment, or assessment and treatment together on the same day. The right option depends on your readiness for release and your preferred timing. Details for each are below.

Option 1 — Virtual Assessment

Assessment and care suggestions are completed virtually. Completion of photo templates and intake forms will be required prior to assessment as well as prepayment.

Virtual Assessment and Acquisition of Records	Fee
Virtual	
Comprehensive Functional Oral Assessment 1 hour	$506
CBCT Scan review and Interpretation (for existing CBCT sent to our office)	$500
In person (if progressing to office care)	
CBCT scan, with BeamReaders radiology report	$724

Option 2 — Assessment and Treatment (Same Day)

To book assessment and treatment together on the same day, please provide the following in advance to allow Dr. Pada time to evaluate your myofunctional function and structural readiness for release:

- A summary of assessment from your Orofacial Myofunctional Therapist (OMT)
- A complete set of photos, as outlined in the guide and template, clearly visible throughout (if not included in OMT report)

Same-Day Assessment & Treatment	Fee
Assessment	
Comprehensive Functional Oral Assessment	$506
CBCT scan (with BeamReaders radiology report)	$724
Fee per site for recommended treatment	
OraLase (required first step of the two-step release protocol)	$200
Craniosacral Therapy (during release, available Mondays only)	$130
Surgical release — tongue	$700
Surgical release — upper lip	$550

Same-Day Assessment & Treatment	Fee
Surgical release — lower lip	$550
Surgical release — upper buccal	$395
Surgical release — lower buccal	$395
In person post-op follow-ups recommended (day 3 and day 7, approx. 15–30 min each) Virtual available if needed.	$125

Please note: Surgical treatment always begins with OraLase, and Craniosacral Therapy is highly recommended and available on a priority basis to surgical care on Mondays. The specific releases needed are determined after assessment, based on individual needs.

About your CBCT report

BeamReaders is a third-party radiology group we partner with to provide formal reports on CBCT scans. Your scan will be reviewed by a BeamReaders radiologist, and a detailed report will be sent to you by email.

Billing and insurance

> **Our services are not covered by MSP and do not offer direct billing. Payment is due at each appointment. However, we can submit claims to one primary insurance for extended dental benefits on your behalf, and will provide an invoice for you to submit directly. Most dental insurance plans will cover part of the assessment and releases. If you require pre-authorization, we are able to provide dental codes to use for contacting your insurance provider.**

Action items — required to book your appointment

To schedule an appointment, please complete the following steps. We are unable to proceed without all forms and patient information:

1. Visit our website and go to: Clinical forms (password: SUPPORT)
2. Complete the forms according to the patient's age group, then save them.
3. Email the completed forms to welcome@collabcr.ca.
4. Watch for an email with instructions to create or log in to your MyChart account, then complete all required medical, dental histories and patient goals, to finalize your profile.
5. Complete payment for your assessment Virtual 4+ Comprehensive payment link

Once we have received your completed forms and photo set, we will contact you with available appointment dates.

If you have any questions, please reach out by email, as this is the most efficient way for us to assist you. We also encourage you to check out our Instagram and website for updated resources and FAQs.

Thank you for your trust in our care. We look forward to hearing from you.
